

# MACHINERY PROTECTION

## *Take care of the surface*

Protect the surface and provide a good grip on soft or fragile grounds.  
The plates are made of recycled synthetic materials (UHMWPE).

### GROUND SUPPORT PLATES

#### Advantages:

- Extremely strong and flexible
- High wear-resistance
- Lightweight
- Easy to stack

#### Characteristics:

- Carrying capacity up to 50 tonnes per plate
- Standard with 2 handles per plate (1 per short side)
- Made of 100% durable recycled synthetic material (UHMWPE)
- Standard with a smooth surface
- Technical sheet available on request
- Not suitable to span gaps or for machines with steel tracks

#### Horticulture:

- Lawns
- Driveways & terraces
- Sport fields

#### Events:

- Temporary sidewalks
- Car parkings
- Floors
- Construction industry
